

Mobile MyDeposit iPhone Check Deposit Process

1. Log in to Online Branch using our iPhone Mobile Banking App.

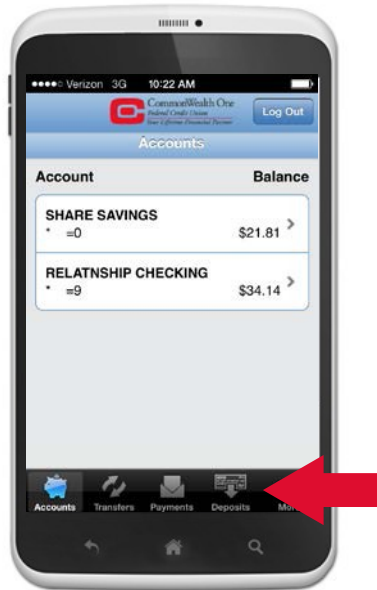

2. Select the account for deposit.

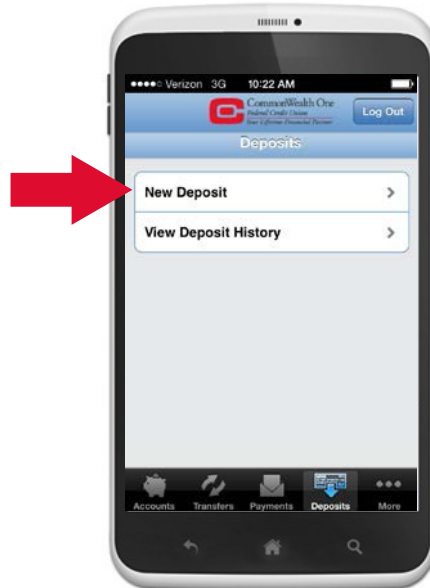

3. Tap "Deposits".

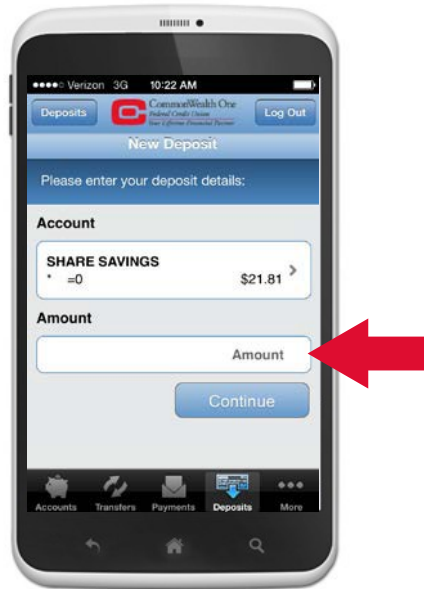

4. Tap "New Deposit"

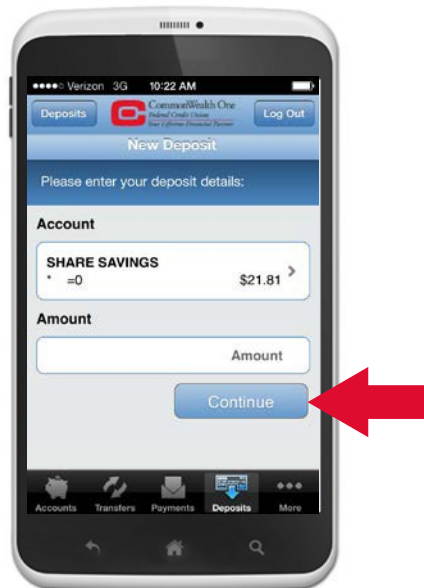

5. Enter the dollar amount of the check.

6. Tap "Continue".

7. Take a picture of the front of your check. TIP: Use a well-lit area to ensure that check images are correctly captured. Using a dark background is recommended. Make sure your check is not torn or folded and that the amounts match.

8. Make sure to avoid shadow and hold your hand steady as you take the picture.

See the Frequently Asked Questions about what types of checks are allowed for deposit through Mobile MyDeposit and for check limits.

- Repeat process 7 to take a picture of the back of your check. Make sure to get your signature clearly in the picture.

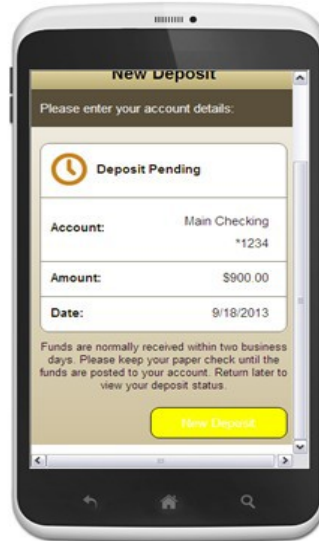

- Once you approve the two images, a confirmation screen will ask you to verify the account and the check amount. If the deposit details are correct, confirm the deposit. Tap yes to continue or no to cancel the deposit.

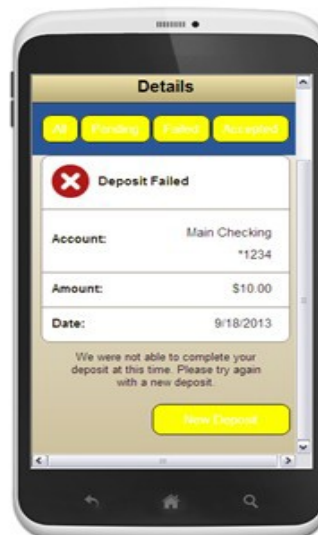

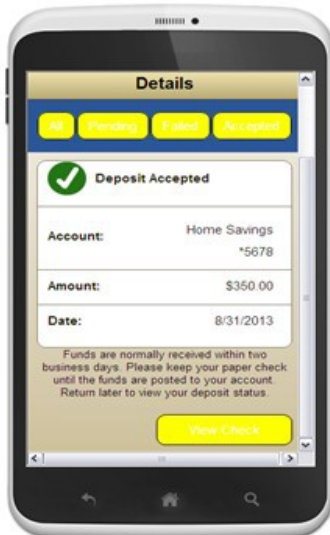

11. Once you have confirmed your deposit, it goes into "Pending" status.

12. If the deposited check is accepted by CommonWealth One, your "Pending" status will change to "Accepted". If the check is not accepted, the status will change to "Failed" and you will be contacted by CommonWealth One.

Is help available?

For help with MyDeposit, call our call center (703) 823-5211 or (800) 424-3334, or email us at cofcu@cofcu.org. **Important!** The email address is not a secure means of communication. Do not send personal information such as your full account number, date of birth, or social security number,

inquiries about specific account information, or request changes to your account record. For these purposes, log in to Online Branch and click on the secure Contact Us link.
